PROFESSIONAL SUMMARY

Results-driven Junior Full Stack Developer with hands-on experience building scalable web applications using React.js, Django REST Framework, and MySQL. Proficient in developing RESTful APIs, designing responsive UIs, and deploying production-grade systems. Experienced in Agile environments with a strong foundation in OOP, DBMS, MVC, and the full Software Development Life Cycle (SDLC). Adept at troubleshooting, debugging, and optimizing application performance.

PROFESSIONAL EXPERIENCE

Software Developer – Sita Softwares

Nov 2025 – Present

- Design, develop, and maintain full-stack web applications using React.js (Vite) and Django REST Framework, following SDLC best practices, MVC architecture, and OOP principles.
- Architect and integrate RESTful APIs for seamless frontend-backend communication; manage relational databases (MySQL, PostgreSQL, SQLite) with complex SQL queries, joins, and CRUD operations.
- Build dynamic, responsive UIs using React.js, Tailwind CSS, GSAP animations, and Three.js; develop backend services with PHP Laravel and CodeIgniter for diverse project requirements.
- Containerize applications using Docker to ensure environment consistency, streamline development workflows, and support reliable deployment pipelines.
- Troubleshoot and debug production issues, optimize application performance, and participate in bug fixing and feature development within Agile sprint cycles.

Python Full Stack Intern – Inmakes Learning Hub

Jan 2025 | Kerala

- Contributed to frontend and backend development using Python, Django, REST APIs, React.js, MySQL, HTML5, CSS3, and JavaScript in a collaborative Agile environment.
- Developed and tested RESTful API endpoints; designed and managed MySQL databases with CRUD operations, SQL joins, and efficient schema design.
- Debugged software issues and assisted in feature development, improving application stability and performance through systematic testing and code reviews.

Full Stack Development Trainee – Techolas Technologies

Jan 2025 | Kerala

- Completed intensive full-stack training covering Python, Django, React.js, MySQL, HTML5, CSS3, and JavaScript with hands-on project-based learning.
- Built and deployed web applications applying OOP, MVC, REST API design, and SDLC principles, establishing a strong foundation in software engineering best practices.

PROJECTS

TripOn – Travel Management Platform

- Built a full-stack travel management platform supporting B2B, B2C, and C2B business models with JWT-based authentication and role-based access control.
- Implemented dynamic pricing with season rate and weekend rate configurations, and a vehicle management module for fleet tracking and booking allocation.
- Designed automated itinerary generation for day-wise travel planning based on user preferences and schedules.
- Built RESTful APIs with Django REST Framework and integrated a React.js frontend via Axios for real-time booking updates.

Tech Stack: Python, Django REST Framework, React.js, Tailwind CSS, MySQL

Task Manager – Smart Schedule Planner

- Engineered a full-stack task scheduling app with React.js (Vite) and Django REST Framework, improving task organization efficiency by ~40% through automated scheduling.
- Implemented a Greedy Algorithm for priority-based task allocation, reducing manual scheduling effort by ~50%; integrated MySQL with DRF serializers for robust data persistence.
- Built RESTful APIs with full CRUD support and connected React frontend via Axios for real-time task updates and seamless user interaction.

Tech Stack: React.js (Vite), Django REST Framework, MySQL, Tailwind CSS

ERP Inventory & Order Management

- Built a full-stack ERP module using Django REST Framework and React.js (Vite) for real-time inventory tracking, order processing, and management dashboards with role-based access.
- Designed normalized MySQL schemas and implemented RESTful APIs with DRF; integrated Bootstrap for a responsive, accessible UI with seamless frontend-backend data flow.

Tech Stack: React.js, Django REST Framework, MySQL, Python, HTML5, CSS3, Bootstrap

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, C, C++

Frontend: React.js (Vite), HTML5, CSS3, Tailwind CSS, Bootstrap, GSAP, Three.js

Backend: Django, Django REST Framework (DRF), PHP Laravel, CodeIgniter, Python

Databases: MySQL, PostgreSQL, SQLite, SQL, CRUD, Database Design, phpMyAdmin

DevOps & Tools: Docker, Git, GitHub, VS Code, PyCharm, PythonAnywhere

Core Concepts: OOP, MVC, REST APIs, SDLC, Agile, DBMS, Data Structures & Algorithms

AI Tools for Development: ChatGPT, Claude, Gemini

Soft Skills: Problem-Solving, Team Collaboration, Communication, Adaptability, Leadership

EDUCATION

B.Tech in Computer Science and Engineering

Indira Gandhi Institute of Engineering and Technology, Ernakulam

Sep 2021 – Apr 2025 | CGPA: 7.08

CERTIFICATIONS

- Python Full Stack Internship – Inmakes Learning Hub (2025)
- Full Stack Development Course – Techolas Technologies (2025)
- Flutter Internship – Luminar Technolab, Kakkannad
- Python Full Stack Development Workshop – College of Engineering, Attingal
